

# COMMERCIAL WATER EFFICIENCY ASSESSMENT

*FOR CUSTOMERS OF FULTON COUNTY WATER*

Fulton County would like  
to provide you with water  
efficiency information!

**PUBLISHED BY FULTON COUNTY  
DEPARTMENT OF PUBLIC WORKS**

# COMMERCIAL WATER USE ASSESSMENT

This assessment is for customers who receive a water bill from Fulton County Water and Sewer billing. Fulton County Public Works is committed to helping our customers conserve water by improving efficiency. Taking a little time to fill out this water use assessment for your facility will give us the information needed to make some basic recommendations to help you reduce your water use.

## HOW IT WORKS:

- Fill out the assessment form to the best of your ability.
- Include your contact information and sign the form.
- Mail or email your completed form to the Public Education and Outreach team at the address provided.
- Allow the team 4-6 weeks to review your assessment and return recommendations.
- After reviewing your information, we may suggest an optional on-site audit by one of our staff members.

## CONTACT INFORMATION:

Name: \_\_\_\_\_

Business Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ Zip Code: \_\_\_\_\_

Phone Number: \_\_\_\_\_ Email: \_\_\_\_\_

Do we have your permission to use consumption data from your bill for assessment purposes?  Y  N

Would you be interested in a free on-site assessment if it's recommended by staff?  Y  N

# ASSESSMENT QUESTIONS

## BUILDING INFORMATION:

Square footage: \_\_\_\_\_ Building age: \_\_\_\_\_

Date and scope of any major renovations:  
\_\_\_\_\_  
\_\_\_\_\_

## DAILY OCCUPANCY:

Full time staff: \_\_\_\_\_ Part time staff: \_\_\_\_\_

Customers / clients: \_\_\_\_\_

Hours per day that the building is occupied: \_\_\_\_\_

## WATER FIXTURES IN THE BUILDING:

How many toilets are in the building? \_\_\_\_\_

How many are tank toilets? \_\_\_\_\_

Age or installation date: \_\_\_\_\_

Make and model (if known): \_\_\_\_\_

How many urinals? \_\_\_\_\_

Age or installation date: \_\_\_\_\_

Make and model (if known): \_\_\_\_\_

How many bathroom sinks are in the building? \_\_\_\_\_

Age or installation date: \_\_\_\_\_

How many are automatic? \_\_\_\_\_

How many kitchen sinks? \_\_\_\_\_

Age or installation date: \_\_\_\_\_

How many sinks have pre-rinse spray valves? \_\_\_\_\_

Are the valves high efficiency models?

Y  N  Unsure

How many laundry or utility sinks? \_\_\_\_\_

How many showers are in the building? \_\_\_\_\_

Approximate age or flow rate (gallons per minute)  
of shower heads? \_\_\_\_\_

How many dishwashers are in the building? \_\_\_\_\_

How many are industrial? \_\_\_\_\_

How many are household-type? \_\_\_\_\_

## WATER FIXTURES IN THE BUILDING:

How many ice machines are in the building? \_\_\_\_\_

Are they air-cooled or water-cooled? \_\_\_\_\_

How many washing machines are in the building? \_\_\_\_\_

How many are industrial? \_\_\_\_\_

How many are household-type? \_\_\_\_\_

Do any of the fixtures have visible leaks?  
(check all that apply)

Faucets or shower heads that drip when turned  
off completely

Water seeping from base of faucet

Water seeping from base of flush valve on toilet

Water puddling under:

- Sinks
- Ice machines
- Dishwashers
- Washing machines

Do any of the parts of the building have separate  
water meters?  Y  N

If yes, which ones? \_\_\_\_\_

Is there a separate irrigation meter?  Y  N

Does the building use any alternate water sources?

Rain barrels

Cisterns

Grey water recycling system

Other: \_\_\_\_\_

Any other information you think would help with  
your assessment:

# WATER SAVING TIPS

## Upgrade to water efficient fixtures:

Look for products with a WaterSense label that will help your wallet and the environment. Cost savings will begin immediately and you can expect exceptional performance when you switch to efficient toilets, urinals, faucets and aerators. You'll also have the assurance that you are saving water for future generations.

**Increase your energy efficiency:** Energy Star rated appliances can reduce your energy use and the associated costs, and are also more water-efficient. Energy Star appliances with WaterSense fixtures team up for big savings!

**Plan for a water-wise landscape:** Use regionally appropriate, low water-using and native plants. Once established, these plants require little water beyond normal rainfall which can significantly reduce outdoor water use.

**Find and fix leaky faucets and pipes:** That little drip from your faucets can add up to thousands of gallons of water loss. Leaks not only waste water but can also substantially increase your company's monthly bills and potentially cause damage to your building.

**Build employee awareness:** Train employees on the importance of water conservation. Water-saving technology can go a long way toward saving water, but your efforts will go much farther if the whole team takes conservation seriously.

*Fulton County thanks you for your commitment to water efficiency. Our team will review your assessment and reach out to you with recommendations. Questions? Contact us by email at [PW.CustomerService@fultoncountygga.gov](mailto:PW.CustomerService@fultoncountygga.gov) or by phone at (404) 612-7400*
