<sup>\*\*\*</sup>Please allow 10 business days for processing the application\*\*\*

\*\* Fees for installation of meters include patching of disturbed pavement, but do not include milling and paving of roadway pavement that may be required by the local municipality. Applicants should coordinate with the appropriate municipal Public Works Department to determine any such requirements and either arrange for the municipality to perform the required milling and paving or have Fulton County perform the work and reimburse Fulton County for such expenses at Fulton County's cost.\*\*
